

African Educational Leadership & School Growth Academy (AELSGA)

Building Africa's Premier Talent Incubator & Growth Engine for Private K-12 Education

Parent Entity: NoVance Ltd / TreNova

Investment Seeking: ₦150,000,000 (\$95k USD)

Target 5-Yr Revenue: ₦4.1 Billion

1. EXECUTIVE SUMMARY & STRATEGIC INTENT

Investment Thesis

Private basic and secondary education in Nigeria is a vast, cash-generative, yet deeply fragmented market with over **80,000 private schools** serving over 15 million learners. However, 85% of school proprietors face acute operational crises: poor fee collection, low teacher quality, declining enrollment, and severe management deficits.

AELSGA is purpose-built by **NoVance Ltd** to monetize this gap by operating as a high-margin talent incubator. We train young graduates and professionals to become **Certified School Growth Mentors (SGMs)** and Ed-Consultants, who are then deployed into partner schools equipped with NoVance's proprietary software (LearnNova LMS and NoVance Analytics).

2. MARKET OPPORTUNITY & LANDSCAPE

Macro Insight: In major Nigerian urban centers (Lagos, Ogun, Rivers, Kano, FCT), private schools account for over **60% of total K-12 enrollment** due to public sector underfunding. Regulatory enforcement under the National Policy on Non-State Schools is forcing proprietors to seek urgent professional capacity building.
